

ONLINE PRESENCE

Many potential worshippers will look up a church on-line before visiting the congregation. Here potential visitors may find out information about the worship service and programs of the church. Members may also use a website to keep up with the news and calendar of the congregation.

Some congregations find it helpful to also have a Facebook page as an additional way of sharing information.

In 2015 the Transition Task Group researched possible website hosting organizations and selected SteepleConnect. The church paid to have a website set up for them. Currently the website shows up in an online search as www.horseheadsfirstpres.org/

The Facebook page that shows up on the internet is not an official site of the church.

The church's contact information can be found online through a search for congregations at www.pcusa.org or a simple search like "Presbyterian Church near Horseheads NY"
