

The following guidelines have been created to satisfy state mandated requirements for stage 2 reopening and to provide a safe and respectful environment for people attending our services.

Please help us with the following procedures:

- When entering, exiting or moving around the gym, please wear some sort of face covering. Once you are seated for worship you can remove your mask.
- Chairs will be arranged in clusters for families to sit together. Feel free to move chairs around, maintaining a reasonable distance from other families or individuals. Social distancing should be practiced as you move about, inside and outside.
- We ask that the playground area outside not be used by the children until further notice.
- Coffee fellowship and all children's programs are suspended for the time being. It might be helpful to bring some things for your children to do during the service.
- Our bathrooms are equipped with hands-free towel and soap dispensers. There are also hands-free Purell dispensers located just outside each bathroom. We ask parents to please accompany small children to and from the bathroom.
- Services will be at the normal times of 9:00 and 10:40 am every Sunday. We will also be having a group picnic every Sunday at noon (weather permitting); bring your family, a simple meal, and a few toys for your kids.

We are thankful that we can meet together again. Sometime in the near future all of the limitations and restrictions will be laid aside, but for now please help us with these simple requests. As circumstances change so will we, until then keep looking up.
